

Hmd off grid how much

The HMD OffGrid, meanwhile, will allow any smartphone user (within reason - HMD hasn't specified exact compatibility just yet) to send and receive messages via satellite, or send an SOS ...

HMD OffGrid allows people to stay in touch whilst "Off Grid" via the OffGrid app, enabling two-way messaging and live location tracking for up to five recipients. It also has a "check in" feature,

HMD recently introduced the Off Grid, a satellite communication device that can pair with your existing Android or iOS devices to be connected in areas where your network may fail you.

Off grid, but not off the radar Don't let a lack of network coverage hold you back. Link this satellite tag to your phone with the HMD OffGrid app to send and receive messages - just like texting. Send

HMD - the manufacturer known best for its Nokia-branded phones - is diversifying its portfolio with what one might call a satellite dongle. Dubbed the HMD OffGrid, the dongle connects to

HMD's new OffGrid hotspot accessory is designed to let smartphones send texts using satellites. We liked it so much, we named it a Best of CES award winner. CNET's Lisa Eadicicco gives it a look.
