

Sosen hybrid battery

100kW~125kW Three-Phase High Voltage Power Conversion System(PCS) The SSE-HH100K~125K-P3EU three-phase high voltage Power Conversion System(PCS) is the ideal solution for large

SOSEN 5 kW Hybrid Offgrid Solar Inverter delivers reliable power for residential and small commercial solar systems. It supports both solar and battery input, ensuring stable energy supply even without

The SOSEN 3.6KW Hybrid Off-Grid Solar Inverter is a reliable and efficient energy solution designed for standalone solar systems where grid access is limited or unreliable. This hybrid inverter combines

The SSA-HL5K-P1US is a 5kW off-grid hybrid inverter with 120V single-phase output, specifically designed for residential applications across the Americas. With up to 500Vdc PV input and a built-in

SOSEN 5 kW Hybrid Ongrid Solar Inverter delivers reliable power for residential and small commercial solar systems. It supports both solar and battery input, ensuring stable energy supply even without

It supports a battery voltage range of 150V-800V and dual battery interfaces for flexible configurations. With 4 MPPT strings, wide MPPT voltage range, fast switching time ($<10\text{ms}$), and IP66 protection, it

SOSEN 8 kW Hybrid Ongrid Solar Inverter delivers reliable power for residential and small commercial solar systems. It supports both solar and battery input, ensuring stable energy supply even without

The SOSEN 5KW Hybrid On-Grid Solar Inverter is a reliable and efficient solution designed for residential solar systems and small commercial installations. This hybrid inverter combines solar PV

The SSE-HH100K~125K-P3EU three-phase high voltage Power Conversion System(PCS) is the ideal solution for large commercial and industrial energy storage projects. Designed for professional

SOSEN 3.6 kW Hybrid Offgrid Solar Inverter delivers reliable power for residential and small commercial solar systems. It supports both solar and battery input, ensuring stable energy supply

Meet the SOSEN 30~70kW hybrid inverter, designed for complex commercial environments in North America where load structures, grid standards, and expansion needs can differ.

It also features LVRT & HVRT, black-start function. The battery voltage ranges from 1000V to 1500V. The IP66 protection degree and anti-islanding protection for next level of safety. It also
