

Sun magic solar battery

Imagine your battery as a diligent squirrel storing acorns. Solar magic batteries operate similarly, using solar panels to collect sunlight (the acorns) and storing it in lithium-based storage systems

Ideal for off-grid, backup, and hybrid solar setups, this 48V 300Ah LiFePO4 battery delivers powerful energy storage with over 8,000 charge cycles and a robust 7-year warranty.

Installation Accessories Included Introducing the Sunmagic 25.6V 150AH 3.8Kwh Lithium Battery LiFePO4, a powerhouse of reliable energy storage with cutting-edge lithium iron phosphate
