

Supplier of dg matrix

DG Matrix provides solid-state transformer solutions for data centers and electrification projects such as microgrids and EV fleets. Now the company has secured \$20 million in an

stment in DG Matrix through ABB Electrification Ventures, the venture capital arm of ABB Electrification. With this latest partnership, ABB Electrification Ventures has invested around \$80 million in 15

The Series A funding round closely follows a partnership agreement with energy storage firm Exowatt. The deal will pair Exowatt's heat-battery-based dispatchable solar technology with DG

DG Matrix has also partnered with PowerSecure, a Southern Company subsidiary, to accelerate the deployment of next-generation power infrastructure for AI data centers and large

DG Matrix accelerates speed to power and lowers energy costs with the world's first multi-port solid-state transformer (SST)--powering AI datacenters and electrification with a total-energy

DG Matrix is forging strategic partnerships across research, technology, and industry to advance a new global power architecture. By collaborating with leading data centers, battery manufacturers,

DG Matrix introduces the world's first multi-port solid-state transformer--enabling unprecedented speed to power, lower energy costs, and seamless integration of multiple AC and DC energy sources and

They excel in the high-heat, high-demand environments of AI data centers. DG Matrix's Interport: This solid-state platform serves as the "brain," routing power in real time between the

MORRISVILLE, N.C., February 18, 2026--DG Matrix, the global leader in solid-state transformer solutions, today announced the close of its \$60 million Series A funding. Engine Ventures led the ...
